CRM for Real-Estate Industry

Real estate CRM software is a system that helps to maintain relationships among buyers, sellers, agents, brokers, developers, and financial institutions and fulfills multiple requirements of real estate agents and real estate firms. From managing incoming requests to preparing price quotes, from selling commercial real-estate to property management, the real estate CRM system takes care of the end-to-end process management for real estate agencies.

- Manage Customer Contacts
- Manage Positive Follow-ups
- On Time Reminders
- Manage Multiple Builder Databases

- Grant access permissions to various CRM modules.

Task Module

- Add multiple tasks and their descriptions.
- See the completion status, priority and end date of every task.

Projects Listing

Create a project with any number of assignable tasks and milestones with due dates. Associate the project with a customer, case, or another entity to always be easily found. Then, attach files, collaborate, and track progress right from the project's dashboard.

The screenshot displays the RITECHNOIDS software interface. The top navigation bar includes the RITECHNOIDS logo, a search bar, and utility icons for language, settings, and user profile. The main content area is divided into two sections. The left section shows a 'LISTS' sidebar with a search bar and a 'SHARED LIST' dropdown. The main area displays a grid of asset cards, each featuring a 'básico' logo and a green 'Asset Detail' button. The right section shows a detailed view of an asset, including a profile picture, name, and a table of details.

for sending out drip email campaigns

PROJECT MANAGEMENT

tools to keep tabs on all your ongoing projects

THIRD-PARTY INTEGRATIONS

and APIs to improve productivity

COMPLETE CUSTOMIZATION

to accommodate the unique processes of real estate agents

Core Features of Real-Estate CRM

Customers Portal

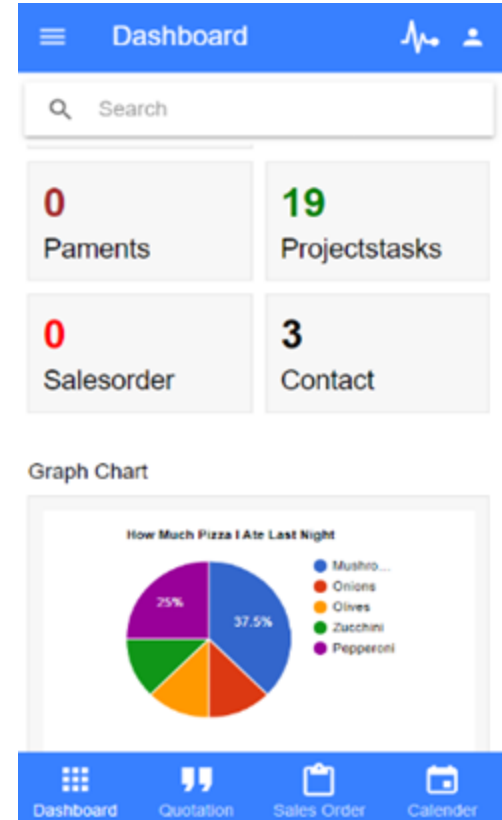

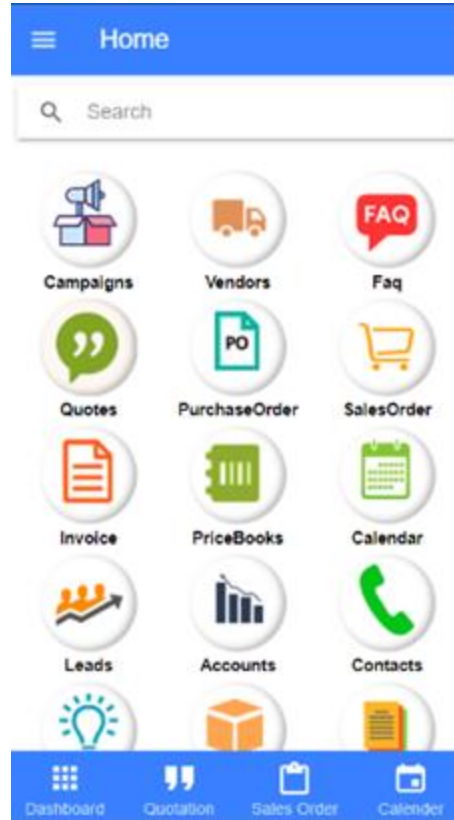

A customer portal is a website designed to give current customers access to services and information they need. It may contain account information, payment information, property information, account history, downloadable digital files, access to support mechanisms, and the means for customers to upload information.

The screenshot displays a customer portal interface with a navigation menu at the top and a main content area. The navigation menu includes: MY DASHBOARD, MY PROPERTIES (highlighted in blue), MY TASKS, MY SERVICE REQUESTS, HOME LOAN SUPPORT, and SCHEDULE A VISIT. The main content area features a horizontal flow of four green circular icons connected by a line, representing the registration process: 1. My Properties (handshake icon), 2. Registration Process (document icon), 3. Construction Progress (stack of bricks icon), and 4. Possession handover (house icon). Below the 'My Properties' icon, there is a checklist of completed items: ✓ Application Form, ✓ Welcome Email, ✓ Allotment Letter, and ✓ Home Loan Support. A blue circular chat icon is visible on the right side of the main content area. The background of the main content area shows a faint city skyline.

Mobile App for Real-Estate CRM

- Work From Anywhere
- Have Offline Access To Data - So Work Doesn't Stop
- Same Omni Channel Communication Access On Mobile
- Track Offline Calls
- Stay Connected With Push Notifications
- Complete Productivity Control On Mobile
